GPS-532 and GPS-532-C

USERS' GUIDE

The GPS-532 is an active antenna designed to operate at the GPS L1 and L2 frequencies, 1575.42 and 1227.60 MHz. The GPS-532-C version is aircraft certified for navigation. This guide provides the basic information you need to install and begin using your new antenna.

ADDITIONAL EQUIPMENT REQUIRED

- A device with an antenna input port that both receives the RF signal and provides 2.5 to 24.0 VDC to the antenna is required to set up the GPS-532. (NovAtel GPS receivers provide the necessary power through their antenna RF connectors.)
- Coaxial cable with a male TNC connector

INSTALLING THE ANTENNA

- Both the input DC power and the output RF signal flow over a single coaxial cable that is connected to the unit's TNC female connector.
- The antenna can be attached to a surface by means of an ARINC-743 Bolt Pattern.
- Four screws pass through the housing of the antenna.

Install the antenna as follows:

1. The antenna is supplied with an o-ring. Place it in the o-ring groove of the antenna base.

User-supplied o-ring grease can be used to hold the o-ring in the groove during installation.

2. Pre-drill the mounting holes and the connector hole on the surface, see the Mechanical Drawings section of this guide for details on the ARINC-743 mounting pattern.

3. Attach the antenna to the surface using the four mounting screws supplied. The o-ring compresses and creates a seal between the surface and the antenna.

5. Attach the male TNC connector of the coaxial cable to the antenna's TNC connector.

6. Attach the other end of the coaxial cable to the antenna input port of the receiving device, which must provide power as detailed in the *SPECIFICATIONS* section of this guide. All NovAtel GPS receivers provide the necessary power through their antenna RF connectors.

The graphic above shows examples of where the 532 antenna may be placed on an aircraft or vehicle (not to scale).

ANTENNA CARE

The GPS-532 is designed to withstand the elements, including rain, snow, and dust. However, to ensure your antenna performs optimally, keep the radome clean and brush off any ice and snow. In addition, ensure the TNC connector remains clean and dry and replace the dust cap when a cable is not connected.

SPECIFICATIONS

RF			
3 dB pass band (typical)	L1: 1575.42 ±13 MHz L2: 1227.60 ±13 MHz		
Out-of-band rejection (typical)	> 40 dBc		
Gain at zenith (θ = 90°) (min)	L1: +4.7 dBic L2: +3.3 dBic		
Gain roll-off (zenith to horizon)	L1: +6.5 dB L2: +7.1 dB		
LNA gain (typical)	31/33 ±2 dB		
Polarization	Right-hand circular		
Noise figure (typical)	3.0 dB		
Nominal impedance	50 Ω		
VSWR	≤ 1.5 : 1		
POWER			
Input voltage	2.5 - 24.0 VDC		
Current (typical)	35 mA		
PHYSICAL			
Radome Size	5.6 cm (2.20") x 8.6 cm (3.40")		
Weight	198 g (7.0 oz.)		
ENVIRONMENTAL			
Maximum altitude	21336 m (70000 ft.)		
Operating temperature	-55°C to +85°C (-67°F to +185°F)		
Storage temperature	-55°C to +85°C (-67°F to +185°F)		
Designed to meet these standards ^a	D0-160D DO228 MIL-C-5541 MIL-E-5400 MIL-I-45208A MIL-STD-810 SAE J1455		

a. If you purchased the GPS-532-C version, your antenna has the full TSO-C144 certification.

WARRANTY POLICY

NovAtel Inc. warrants that its Global Positioning System (GPS) products are free from defects in materials and workmanship, subject to the conditions set forth below, for the following periods of time

GPSAntenna[™] Modules: One (1) Year Cables and Accessories: Ninety (90) Days

Date of sale shall mean the date of the invoice to the original customer for the product. NovAtel's responsibility respecting this warranty is limited solely to product repair at an authorized NovAtel location only. Determination of repair will be made by NovAtel personnel or by technical personnel expressly authorized by NovAtel for this purpose.

The foregoing warranties do not extend to

(i) nonconformities, defects or errors in the products due to accident, abuse, misuse or negligent use of the products or use in other than a normal and customary manner, environmental conditions not conforming to NovAtel's specifications, or failure to follow prescribed installation, operating and maintenance procedures, (ii) defects, errors or nonconformities in the products due to modifications, alterations, additions or changes not made in accordance with NovAtel's specifications or authorized by NovAtel, (iii) normal wear and tear, (iv) damage cause by force of nature or act of any third person, (v) shipping damage; or (vi)service or repair of product by the dealer without prior written consent from NovAtel.

In addition, the foregoing warranties shall not apply to products designated by NovAtel as beta site test samples, experimental, developmental, preproduction, sample, incomplete or out of specification products or to returned products if the original identification marks have been removed or altered.

The warranties and remedies are exclusive and all other warranties, express or implied, written or oral, including the implied warranties of merchantability or fitness for any particular purpose are excluded.

NovAtel shall not be liable for any loss, damage or expense arising directly or indirectly out of the purchase, installation, operation, use or licensing or products or services. In no event shall NovAtel be liable for special, indirect, incidental or consequential damages of any kind or nature due to any cause

Before shipping any material to NovAtel or our Dealer, please obtain a Return Material Authorization (RMA) number from the point of purchase. You may also visit our website (http://www.novatel.com) and select Support | Repair Request from the side menu.

QUESTIONS OR COMMENTS

If you have any questions or comments regarding your 700 series antenna, please contact NovAtel Customer Service using one of methods provided below.
